PROFESSIONAL SUMMARY

Third-year Mathematics student at IPB University specializing in **quantitative analysis, data modeling, and end-to-end data pipeline development**[cite: 21, 25, 26]. Proven ability to translate abstract objectives into data-driven solutions, ranging from web-based collection apps to structured evaluation systems. Highly experienced in **remote collaboration and leadership**, currently serving as Chairman of Gumatika[cite: 32, 43, 46]. Seeking remote data analyst or freelance quantitative roles to apply technical skills in Python, Streamlit, and statistical modeling[cite: 29, 38].

TECHNICAL SKILLS

- **Programming:** Python (NumPy, Pandas, Streamlit), Julia, LaTeX, VBScript.
- **Data Analysis:** Exploratory Data Analysis (EDA), Stochastic Processes, Financial Modeling, Categorical Encoding, Data Cleaning/Validation.
- **Tools:** Google Sheets (Advanced Dashboards), GitHub, Survey Design, Database Administration.
- **Soft Skills:** Remote Project Management, Stakeholder Collaboration, Technical Tutoring, Leadership[cite: 32, 47, 48, 58].

SELECTED DATA PROJECTS

Mathematics Characteristics Database | *Python, Streamlit, Data Visualization* Oct 2025 – Nov 2025

- Developed an end-to-end data pipeline and custom web-based application using **Streamlit** to replace traditional forms, improving user engagement and accessibility.
- Designed the survey framework and sampling strategy, resulting in **100% target response rate within 24 hours** and 150% by project completion.
- Conducted exploratory analysis and visualization to extract actionable insights for mathematics undergraduates.

Work Programme Database | *Data Analysis, Categorical Encoding, Google Sheets* Apr 2025 – Dec 2025

- Engineered a data-driven internal evaluation system to assess performance quality across organizational departments.
- Transformed qualitative interview data into quantitative variables using **dummy parameters and categorical encoding** for objective modeling.
- Performed rigorous data cleaning and consistency checks to ensure analytical reliability for executive decision-making.

Mathematics Alumni Database | *Database Structuring, Survey Design* Aug 2025 – Nov 2025

- Designed a survey framework optimized for high-quality data acquisition and downstream usability with clean structure and minimal redundancy.
- Coordinated with the Study Program to establish official data-collection channels, ensuring response reliability and pipeline-ready data structuring.

Mathematics Internship Database | *Survey Methodology, Data Strategy* May 2025 – Aug 2025

- Served as Survey Lead, planning and executing outreach strategies to reach the target audience efficiently.
- Successfully collected over **100% of the targeted responses**, exceeding original data acquisition goals.

LEADERSHIP & EXPERIENCE

Gugus Mahasiswa Matematika (Gumatika) IPB Dec 2025 – Present
Chairman of the Executive Board Dramaga, Indonesia

- Leading an organization of 7 departments and 1 bureau, managing high-level strategy and administrative execution[cite: 43, 44, 46].
- Bridging the gap between strategy and execution, ensuring cohesive organizational identity and agile navigation of challenges[cite: 48, 49].

IPB University
Calculus II (MAT1211) Lecturer's Assistant

Aug 2025 – Present
Dramaga, Indonesia

- Mentoring **50+** **students** weekly, translating complex mathematical theory into digestible concepts through tutoring and grading[cite: 55, 57, 58].

IPB Mathematics Challenge (IMC)
Head of Course of Data (CoD) Division

Feb 2025 – Dec 2025
Dramaga, Indonesia

- Managed a team of **15+** **members** to deliver a high-impact event, including professional training in data analysis and operations research[cite: 71, 73, 76].

EDUCATION

IPB University 2023 – 2027 (Expected)
Bachelor of Science in Mathematics | Focus: Applied Math, Finance & Actuary Bogor, Indonesia [cite: 104, 105]
